A JOURNEY ALONG THE GOLDEN QUADRILATERAL

Bob Rupani is one of India's leading automotive journalists. In his latest book, *The Golden Quadrilateral*, he shares his

journey through India's lifeline – the Golden Quadrilateral (GQ). This multi-lane highway, which connects the four metro cities of Delhi, Mumbai, Chennai and Kolkata, was the brainchild of our former Prime Minister, Atal Bihari Vajpayee. Bob talks about the inception of this project, the challenges that the Government of India faced in its implementation, and the cultural diversity of our country.

This coffee table book is a travel guide that reveals hidden roads that even Google Maps won't be able to trace. If you're a foodie, and don't mind if your taste buds work overtime, then this book will also tell you exactly where to stop and indulge in the local cuisine. For all you history buffs, Bob has also added golden nuggets of historical facts that will jog your memory and remind you of those history lessons in school. And, not to forget, this coffee table

book also contains spellbinding photographs that capture the essence of India. Covering 5,846 kilometers, this book is divided into four parts – Delhi to Kolkata, Kolkata to Chennai, Chennai to Mumbai and Mumbai to Delhi. Whether you are a wanderlust, foodie or history buff, *The Golden Quadrilateral* has something for everyone.

The Golden Quadrilateral is available on Amazon and Flipkart for ₹1,950.
